If you wish to make a food donation, please contact the Campus Ministry Office at ext. 302/389.

NURSING DEPARTMENT RECEPTION

There will be a reception honoring Barbara Tripp hosted by the Nursing Department on November 22, 1982 at the Pell Building from 12:30-2:30 p.m. Dessert and coffee will be served.

PSYCHOLOGY DEPARTMENT FILM

The Department of Psychology is sponsoring the showing of the film L'enfant Sauvage (The Wild Child) directed by Francois Truffaut. This poignant and psychologically rich film documents the discovery, attempt at training, and life of the famous "Wild Boy of Aveyron" discovered living alone in the wild with animals as a "wolf child" in the woods of France in the late 18th century. 11/23 - 7:00 p.m. O'Hare.

SIXTH YEAR FOR SALVE REGINA GOVERNOR'S BALL; FESTIVAL BALLET TO PERFORM

This year is the sixth anniversary of one of the state's most celebrated Christmas parties: the Salve Regina College Governor's Ball. The annual fundraising event, a well-established tradition, will be held Saturday, December 4 from 9:00 p.m. to 1:00 a.m. in the College's Ochre Court on Ochre Point Avenue in Newport.

Adding a special touch of entertainment to this year's Ball will be the Festival Ballet of Rhode Island. Six members of the troupe, donned in their own ballgowns and tails, will enter via the grand staircase in Ochre Court and perform a ballet to the "Emperor Waltz," by Johann Strauss, the younger.

Continuous dancing at the Ball throughout the evening will be provided by the Hal Corcoran Orchestra.

The Ball is open to all. Call Sharon Caine, ext. 224, for more information or to make a reservation (\$150 per couple). Deadline for Ball reservations is Tuesday, November 23, 1982.

NEWPORT BRIDGE IS FOCUS OF UPCOMING  
"EDUCATION VIA RADIO" ON WADK

The Newport Bridge, a tribute to man's architectural ingenuity, will be the subject of the upcoming "Education via Radio" program Wednesday, November 24, from 9 to 10 a.m. on WADK, radio 1540. Francis G. Dwyer, Newport real estate and insurance executive and a key individual involved in the planning and development of the 2,974-foot suspension bridge linking Newport and Jamestown, will be the guest speaker.

Construction of the bridge was begun in 1967 after years of studying plans to determine specific requirements for the bridge. A tunnel to link the islands was discussed briefly, but was ruled out because of the depth of the bay. Height was also an important consideration; it was set at 225 feet to allow Navy aircraft carriers to pass safely underneath.

New construction methods had to be used to build the bridge piers which were as deep as 160 feet below the water level. In addition, 400-ton steel foundation boxes were used to form the base of each pier to prevent possible damage from scouring at the bridge footings in the event of a hurricane.

Completion of the bridge effectively eliminated the Jamestown ferry line established by Caleb Carr. From 1670, this same line was in continuous operation until the bridge's opening in 1969.
