SALVE REGINA COLLEGE

Salve Regina Introduces Two New 5-Year Master of Science Degree Programs

Students in Dr. Mary Louise Greeley's Hematology Class make use of the microscope color video system, an innovation which allows students to view enlargements of microscopic slide specimens on a 19-inch monitor.

This September, Salve Regina College will launch two, new five-year programs of study which will grant combined bachelor's and master's degrees. The new programs are in accounting and biomedical technology and management.

Master's Program in Biomedical Technology and Management

The new graduate program in biomedical technology and management interfaces with our undergraduate program in biology with a specialization in microbiology. In a five-year combined bachelor's and master's program, students can earn a bachelor of science in biology with a microbiology specialization and a master of science degree in biomedical technology and management.

"This new program is designed to prepare graduates for professional careers in medical technology and biotechnology," said Dr. Mary Louise Greeley, the program director. "The program qualifies students for entrance to the national registration examination given by the American Society of Clinical Pathologists (ASCP). Satisfactory completion of the exam enables the student to become a registered medical technologist."

The management segment of this program prepares the student to assume a leadership position in the biomedical technology field, according to Dr. Greeley. The typical position in a laboratory not only requires biology or biomedical graduate and undergraduate degrees, she said, but also advanced management courses.

(continued on page 3)

Networking Program Unites Alumni and Students

The Career/Alumni Network Program at Salve Regina College allows students to shadow an alum in his or her daily work activities. The program involves alumni and student interaction in a business environment. For example, Aileen Rocheleau, a junior politics major, will meet with Hon. Kathleen S. Connell, Rhode Island Secretary of State, and Peter Vanturas, a sophomore administration of justice major, will shadow Robert W. McKenna, a detective with the East Providence Police Department. A complete list of alumni and student participants follows:

Victoria Almeida, Trial Attorney for Adler Pollack and Sheehan Incorporated . . . Charlene Chapman, a senior administration of justice major.

Steve Brownell, a Financial Investigator of R.I. Department of the Attorney General . . . Christine Castro, a senior accounting major.

Joan Cembrola, Computer Scientist, Naval Underwater Systems Center . . . Ivan Rodriguez, a senior management major.

Rick Goff, Account Supervisor at Duffy and Shanley . . . Joy San Souci, senior management major.

Mary Macion, Grants Program Coordinator for Newport School Department . . . Maureen Patrick,

a senior English major.

Barbara McAloon, Social Worker for the Forest Farm Nursing Center . . . Matthew Marseglia, a senior administration of justice and psychology major.

Michael McCann, Counsel of the Department of Business Regulations . . . Lorraine Escobar, a senior administration of justice major.

Jack McMahan, Assistant Attorney General of the Department of the Attorney General . . . Mary Beth Duda, a sophomore administration of justice major.

Carole Ann Pace, Providence City Archivist . . . Kerry Fryer, a senior American studies major.

Wendy Terebesi, Animatrice/Trainer from Christian Dior . . . Jennifer Izzi, a junior sociology major.

Other alumni participants include: Albert Gardner, Chief of Security at the Department of Corrections; Stephen Lytle, Sergeant of the Cranston Police; Steven Weaver,

(continued on page 4)

Master's Program in Accounting

In the combined bachelor and master degree program in accounting, students can earn either a bachelor of arts or bachelor of science as well as a master of science degree in accounting.

The new 5-year program is particularly suited to students who wish to get an undergraduate degree in liberal arts and an advanced degree in business. This powerful combination is highly desirable to employers seeking graduates with a well-rounded professional education, according to recent trends reported by the American Institute of Certified

Public Accountants.

Following the suggested plan of study, the student will complete all of the undergraduate and one-fifth of the graduate requirements by the end of the fourth year.

The program meets all the requirements necessary to sit for the national CPA examination as well as new membership requirements issued by the American Institute of Certified Public Accountants.

For further information, call Mark Dray in the Admissions Office at ext. 2908.

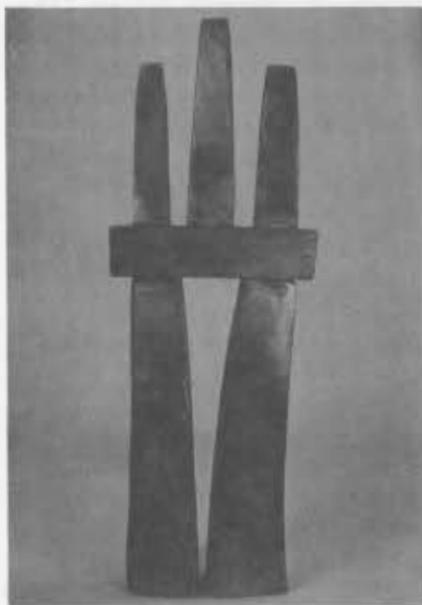

Pulitzer Prize winning author/historian Dr. Daniel J. Boorstin (left foreground) signs copies of his books at a reception preceding his recent lecture, part of the College's Atwood Lecture series. Marjorie Atwood ('81) and Dr. Thomas Svogun, Assistant Professor of Administration of Justice, greet Dr. Boorstin.

Faculty News

Dr. Laurel End, and Dr. Caroline Salvatore, Associate Professors of Psychology, presented a paper at the fourth Annual Conference on Undergraduate Teaching of Psychology: Ideas and Innovations. The paper, entitled *Writing in the Teaching of Psychology: A Comparison of Active Versus Passive Teaching Methods*, was an outgrowth of the Fall Faculty Workshop conducted by Dr. Elaine Maimon.

The conference, sponsored by Division 2 (the Teaching of Psychology) of the American Psychological Association, was held in March at the Springfield Technical Community College in Springfield, Mass. The conference proceedings will be published in the ERIC document system.

Dolmen (ss 1/89), a ceramic sculpture by Brother Ralph Bucci.

Br. Ralph Bucci, Assistant Professor of Art, exhibited ceramic sculpture in a show called "Scapes and Other Monumenta" during April. The show was held at the DeBlois Gallery in Newport.

Br. John Buckley, Professor of History, attended the Convention of the Organization of American Historians held in Washington, D.C. from March 22-25. The organization, one of the largest in the country, meets yearly. Among the topics was the Korean War, which has its 40th anniversary this year.

Sr. Ann Nelson, Professor of Politics, has been appointed by Governor Edward DiPrete to the State Advisory Commission of Judicial Appointments. Her term runs through March 1, 1992.

Students and Faculty Play at Noon Concert

Salve Regina faculty and students will display their vocal and instrumental talent in the final Noon Concert of this academic year on Wednesday, May 2, in Cecilia Hall.

The Noon Concerts are open to the public, and admission is free. For further information, contact the Music Department at ext. 2295.

Art Department Chairman at Salve Regina College Named President of National Ceramics Organization

Jay Lacouture stands next to one of his ceramic works at the opening reception for the Faculty Art Show, held in January.

A professor at Salve Regina College has been appointed as president of a national arts education association and has been selected as an artist-in-residence at an internationally renowned ceramic center.

Jay Lacouture, Chairman of the Art Department at Salve Regina, has been named President of the National Council on Education for the Ceramic Arts (NCECA).

Lacouture assumed the post of NCECA president during the recent national meeting of the organization, held in Cincinnati. The office involves a six-year tenure, two as president-elect, two as president and two as past-president. He will preside over the next two national conferences, including the 25th anniversary meeting of NCECA which will be held in Tempe, Arizona next spring. NCECA, a non-profit educational

organization, is a professional association of individuals whose interests, talents or careers focus primarily on the ceramic arts. It became an independent organization in 1967 after several years of affiliation with the Ceramic Educational Council of the American Ceramic Society. Members include teachers, artists, potters, students and others who share a concern for the ceramic arts.

While on sabbatical this fall, Lacouture will be an artist-in-residence at the Archie Bray Foundation in Helena, Montana. The Archie Bray Foundation, a public, non-profit educational foundation dedicated to the enrichment of the ceramic arts, was founded in 1951 with the intention of providing a workplace for artists concentrating on the ceramic arts. Artists-in-residence are chosen from an internationally competitive field of applicants.

A graduate of Rhode Island College, Lacouture received his M.F.A. in ceramics at West Virginia University. He was appointed to the Salve Regina College faculty in 1980 and has served as chairman since 1981. His work has been exhibited nationally in cities which include New York, Kansas City, Portland, Ore., San Antonio and Los Angeles.

Alumni/Parent Phonathons are a Success

Marc Piers ('91) and Susan Rose (far right) Assistant Director of Career Planning and Placement ('85), place calls at a recent phonathon. Kelli Squatrito (center), Special Projects Coordinator, oversees the calling.

Salve Regina College reports a successful series of Alumni/Parent Phonathons held in Newport, Providence and Hartford. High-spirited phonathon volunteers and the installation of additional phone lines had a positive impact on the success of this year's phonathons. In fact, at the mid-way mark of the year, phonathons have helped to generate a 76 percent increase in donor participation.

Close to 30 phonathons were held which attracted over 225 faculty, staff, alumni and student volunteers. Phonathon volunteers demonstrated their commitment to the College by contacting approximately 7,000

parents and alumni to ask for their financial support for the Annual Fund program.

This year, significant improvements have been made to the phonathon room. By increasing room size and having 25 phone lines available for calling, we were able to accommodate more volunteers in an enthusiastic and comfortable atmosphere.

If you would like to learn more about the phonathons, please contact Kelli Squatrito, Special Projects Coordinator, at ext. 2148 in the Development Office or Tom Hastings, Director of Alumni/Parent Activities at ext. 2157.

Senior Art Shows Continue Through May 9

Art exhibits featuring works by senior art majors will continue through May 9 in the McKillop Gallery. Show II runs through April 25, and Show III opens on April 29 and runs through May 9.

Show II highlights the following students and their works: Monique Penta and Kim Pharmer are exhibiting graphic design. Melissa Ablondi and Jennifer Thomas are showing photography. Thomas Shannon is displaying ceramic works.

Show III, the last in the series of this year's student art exhibits, features the following students: Staci Antonio will display graphic design. Jason Burrell will exhibit mixed mediums of charcoal, wax and painting. Lizabeth Dion will show graphic design and photography. Thomas Judd will display paintings. Andrew McCarthy will show photographic works.

An opening reception for Show III takes place on Sunday, April 29, from 2-4 p.m.

Gallery hours are Monday through Thursday, 11 a.m.-4:30 p.m.; Fridays, 11 a.m.-4 p.m. and Sundays, 2-4 p.m.

For more information, contact the Art Department at ext. 2255.

People in the News

Clare Flanagan and **Patricia O'Gara** presented their Senior Recitals during the month of March. Both study with voice instructor Donald St. Jean. Clare's recital was held in Ochre Court and Patricia held hers in Cecilia Hall.

Lori Evangelos Kershner, Director of Public Relations, has been selected to be featured in *Who's Who in the East*. The reference work covers the Eastern United States and parts of Canada.

Suzanne Leary has been accepted to pursue a master of fine arts in ceramics at The School for American Crafts at Rochester Institute of Technology, as well as Edinboro State University in Pennsylvania and Southern Illinois University in Carbondale.

Andrew Moniz, a senior majoring in psychology, has been accepted into the graduate program in social psychology in the Department of Psychology at the University of Kentucky. He has also been offered a teaching assistantship and a tuition scholarship.

Tom Shannon, who has a double major in anthropology and ceramics, will be attending Syracuse University. He is enrolled in the Museum Studies master of arts program.

Parents Weekend '90

Sunday Brunch with President Lucille McKillop, R.S.M.

A highlight of Parents Weekend is the annual Honors Convocation which will be held in Spruance Hall, Newport Naval Base, on Saturday, April 28 at 10 a.m. Honors Convocation recognizes those students who have excelled in scholarship, leadership and service to the community.

For more information contact Tom Hastings in the Alumni/Parent Activities Office at ext. 2157.

The College will host an annual Parents Weekend from Friday, April 27 to Sunday, April 29. The event provides parents and friends with the opportunity to spend a fun-filled weekend on the College campus.

A variety of programs are scheduled for the weekend, including concerts by the Salve Regina College Choruses, Concert Band and Jazz Combo; computer center tours; a Sigma Phi Sigma Induction; the Parents Weekend Dance held in Ochre Court; sports events, and a

Master's Program in Biomedical Technology and Management

(continued from page 1)

In order to qualify for acceptance into the program, a student is first required to have an undergraduate biology degree with a specialization in microbiology or biochemistry. Professionals who would qualify include students with degrees in the following areas: pharmacy, marine biology, nursing and chemistry. (The biology credits must have been taken within the last five years.)

Additionally, acceptance into the program is contingent upon the student being accepted into a medical technology internship at one of the College's affiliated hospitals or into an approved medical technology internship at a hospital with which the College would open an affiliation. Prospective students should contact the medical technology program director concerning the specific requirements for admission to the internship. Contact Dr. Greeley at ext. 3105.

The master of science degree in biomedical technology and management is granted upon completion of a program of at least 47 hours of credit. The students' program of study consists of a 32 credit medical technology internship and five graduate courses (15 credits) in management. The internship is normally begun in June-September and is completed at an affiliated hospital-based school which is approved by the American Society of Clinical Pathologists.

The 32 credits include clinical laboratory techniques, clinical microbiology, clinical chemistry, hematology and coagulation, clinical microscopy and the medical technology hospital elective. The 15 credits include organizational theory and behavior, management of human resources, financial accounting, marketing management, ethics for managers: theory and practice, financial management and business policy.

The trend today for professionals in these technical fields is to eventually pursue a master's degree or a doctorate in such biotechnical areas as biochemistry, immunology or microbiology, according to Dr. Greeley. "They have to if they want to move up in management," she said. "A master's makes a student more versatile and desirable from an employer's perspective."

"These conclusions were arrived at after polling many of our biomedical technology graduates who have gone on in the field. Most said that a combination of a master's program in medical technology and management would be the best offering. We hope to address this need and, in doing so, provide the public with a properly educated medical technologist."

Additionally, Salve Regina College intends to maintain its long-standing undergraduate program in medical technology.

For further information on this program contact Mark Dray in the Admissions Office at ext. 2908.

A guest at the annual graduate reception congratulates Peter DiMercurio (center) who will receive his M.A. in International Relations this May. Rev. Patrick Bascio, Graduate Director of Liberal Studies, is at the right.

In Memoriam

Mr. James L. Maher, a former member of the College's Board of Trustees and recipient of an honorary doctoral degree from the College, died on March 27. He was 82. Among his many accomplishments, Mr. Maher was instrumental in establishing the first Salve Regina College Governor's Ball. He also added to the Ball's continued success in the years following. In addition, Mr. Maher established the first group home for mentally handicapped citizens in Rhode Island. He founded three centers providing educational or developmental programs for the mentally handicapped on Aquidneck Island: the James L. Maher Center, James L. Maher Hall and the James L. Maher Vocational Rehabilitation Center. He served as Newport's mayor from 1959 until 1961 and was a member of the Newport City Council from 1953 to 1955.

Basketball player Chris Julius (second from left) was recently selected for the Coaches All-New England 3rd Team and the E.C.A.C. Division II New England All-Stars 2nd Team. She is the first player in the history of the College to receive these honors. Lori Jacob (second from right) was named Senior Scholar-Athlete of the Year of the Commonwealth Coast Conference, and she was selected to the 1st Team All-Conference for her outstanding play this season. They are flanked by teammates Tracy Giroux (far left) and Jane Lewis (far right).

THE NEWS BULLETIN

The News Bulletin is published monthly for the Salve Regina College community by the Office of Public Relations.

Editor
Patricia Hatfield

Production/Design
Reinette F. Speare

This is the last News Bulletin of the 1989/90 academic year. Publication will resume in September.

For further information contact the Office of Public Relations, 100 Ochre Point Ave., Newport, R.I. 02840 (401) 847-6650, extension 2155.

A Tribute To Saving The Earth Sets The Tone For Spring Weekend

Barbara Shamblin, Associate Professor of Art, adjusts the screen on a television playing a video on recycling. Shamblin's 3-D Design class assembled a living room made of non-recyclable trash, and the exhibit was displayed as part of Earth Day celebration.

The environment took center stage during Spring Weekend, April 20-22. A class in 3-D Design, taught by Associate Professor of Art Barbara Shamblin, assembled a living room with furniture made of non-biodegradable food containers from fast food vendors. The furnishings were on display on the rear lawn of Ochre Court on Sunday to coincide with Earth Day 1990. Brochures on Earth Day were distributed to introduce students to the coalition's goal to help reduce and recycle waste, conserve energy and save

wildlife and open space.

Weekend highlights included a Friday choral concert featuring the Dukemen of Yale. Saturday's festivities included the annual Special Olympics, a tennis match and a Spring Cotillion in Ochre Court. On Sunday, Earth Day celebration was rounded out by all-day events including a volleyball game, live music and a cookout and concluded with a version of the game show "Win, Lose or Draw."

Honors Convocation

The annual Honors Convocation will be held on Saturday, April 28, at Spruance Auditorium at the Naval War College. All members of the College community are most welcome to attend.

Faculty, students, and guests are asked to follow the schedule of times and directions below.

9:30 - 9:45 a.m.

— Faculty and platform committee robe for processional. Students receiving awards should be seated.

10 a.m.

— Processional begins Honors Convocation.

12 noon

— Convocation closes.

Reception follows in Wakehurst for all students, parents, guests and faculty.
(12-2 p.m.)

Directions to Spruance Auditorium

1. Take Annandale Road to Memorial Blvd. Right turn only.
2. Follow Memorial Blvd. to Valley Road (Rt. 214)
3. Stay on Valley Road to Green End Ave (1st light). At Green End Avenue turn left (bear right up hill) to West Main Road (Rt. 114).
4. Continue through light at Rt. 114 on to Admiral Kalbfus Road.
5. Go to rotary and drive halfway around, cross railroad track to Gate 1 (signs posted).
6. Go through Gate 1 to Perry Street (1st right).
7. Turn right on Perry Street to Porter Avenue.
8. Turn left on Porter Avenue to Cushing Road.
9. Park in lot on left just before Cushing Road.

The entire College community looks forward to a great day!

Vice President/Academic Dean Christopher Kiernan was honored for his support of the arts on opening night of the Theatre Department's recent production of "The Apple Tree." Joining Mr. Kiernan, left to right, are: Jay Lacouture, Chairman of the Art Department; Sister Lucille McKillop, President of Salve Regina College; Mrs. Kiernan and Mr. Kiernan; Dr. Bernard Masterson, Chairman of the Theatre Department and Brother James Loxham, Chairman of Applied Music.

Holistic Counselors to Convene at Salve Regina College

Holistic counselors from the New England area are invited to a convention taking place on Saturday, April 28 from 8:30 a.m. to 5:30 p.m. at O'Hare Academic Center.

Entitled "A Call To A New England Holistic Counselor's Association," its purpose is the establishment of a representative professional organization for holistic counselors in the area. This call results from four years of regular meetings of local holistic counselors who gathered to share their professional ideas and concerns and to seek support from their peers. A frequent concern expressed was the sense of being ostracized as professionals in the field of counseling and psychotherapy and the need to find a support system.

Issues discussed include the need for professional recognition in the community; the opportunity for professional growth and peer supervision and a clarification of their goals.

For more information, contact Dr. Jack Childs, Professor of Human Development, at ext. 3179.

S.T.A.R.T. (Students Together For Alumni Relations Today) recently sponsored a dinner for residents of Forest Farm Health Care Center in Middletown. Robert Sameth ('93), coordinator of the event, entertains resident Ethel Brown while Nancy Caswell, adult day care director of the center, looks on.

You are cordially invited to
