## PRESIDENT'S MESSAGE TO NEW STUDENTS

Dear New Student,

In the publication of the College's New Student Register, I reaffirm the hope of all of us at this Catholic college that students will be helped here to become their best selves as they use the opportunities provided for them in their moves toward those goals to which they aspire. We want to provide all who come to Salve Regina College with the opportunity to learn about our values, about a truly Christian community, about academic excellence, about intellectual and moral integrity.

At the same time, we are aware that education is the industry in which the consumers manufacture their own products. That is, in education the students educate themselves using their own intelligence, ingenuity, drive, and the opportunities available to them at their chosen college.

We hope all will use the opportunities available at this College to educate themselves to search for that good purpose to which they ought to devote their lives and to educate themselves to prepare fully to help others, as well as themselves, to achieve their goals. We will do all we can to help all become their best selves.

Sister Lucille McKillop  
President

# COLLEGE ACTIVITIES

## COLLEGE ACTIVITIES

Contributing to the total educational experience of students, the College Activities Office seeks to provide meaningful social and cultural activities to the entire community. Realizing the theoretical environment of the classroom can be complemented with practical experiences, this office affords participants the opportunity to identify, to develop and to share their individual qualities. By fostering an appreciation for diverse interests and talents, the College Activities Office expects students to reach a better understanding of themselves as unique individuals and to seek the best in others. In keeping with the mission of the College, this area and its staff strive to bring the student to the realization that his skills, properly used, can and ought to be offered in service to the larger community.

# AND STUDENT ORGANIZATIONS

## INTRAMURALS AND ATHLETICS

The College offers an extensive variety of programs on an intramural level for both men and women. The intramural program is geared to the students' interest in team and individual sports on all levels of performance. These programs include soccer, tennis, basketball, ping pong, bowling, and softball.

Additional activities are initiated and organized by the students under the direction of the intramural sports director. Growing out of the intramural program, the varsity athletic program for men and women, serves the student with above average athletic abilities. The College is a member of the National Collegiate Athletic Association. Men participate in intercollegiate basketball, baseball, soccer and tennis, and women compete in basketball, softball and tennis.

An Annual Sports Award Program is held in the spring, to acknowledge the contributions and successes of the participants in both intramurals and intercollegiate athletics.

## NEWPORT COLLEGE THEATRE COMPANY

The Newport College Theatre Company is responsible for all main stage productions as well as laboratory workshops in theatre. Students actively involved in this organization fully participate in all aspects of the college theatre program.

The Newport College Theatre Company aligns itself with the Newport College Dance Company, The Newport College Band Club, and the Newport College Singers.

The formation of a College band began in 1977-78. Student interest and talent presently indicate the continuation and active development of this Club under the auspices of the Theatre Department. Participation in this organization provides students with opportunities to further develop and refine their individual musical capabilities.

The Newport College Singers is the official choral group of the College. Membership is open to all members of the College and civic community. Music selections range in style from contemporary to classical. Activities and events are coordinated by the director. The organization is both an educational and an enjoyable activity for students who wish to improve their talents while providing a challenging and significant service to the College.

Committed to the philosophy that the truly educated are those who have developed themselves socially, physically, emotionally and culturally, as well as intellectually, the entire College community is seeking ways to help all persons identify and develop further their capabilities, talents and resources.
