SPECIAL NOTICE.

The supply of water will be cut off from all persons whose water rates are not paid promptly, according to the Regulations on the back of this bill. No further notice will be given.

*MAY 1897*

**REGULATIONS.**

The following regulations will be considered a part of the contract with every person who uses the water.

All applications for the use of water must be made in writing at the Office, and the various uses to which the water is to be applied must be stated fully and truly, and should use for any other purpose be required, notice must be given before it will be allowed.

Persons taking water must keep their water pipes and fixtures in good repair and protected from frost at their own expense, and will be held liable for any damage resulting from their failure to do so.

They will prevent any unnecessary waste, and the water must not be left running to prevent freezing.

Free access to the premises supplied shall be permitted, to examine the apparatus and to ascertain the quantity of water used, the manner of its use, and whether there is any unnecessary waste.

There shall be no concealment of the method or purpose for which it is used. Service pipes will be laid to the line of the street and through the cellar wall, provided the same is on the line of the street, without charge, and all applicants for whom the pipe is laid will be charged for the use of one faucet, whether the water is used or not.

Owners of property will be held responsible for payment of the Water Rates unless the Office is notified in advance that the Rates are to be paid by tenant.

Persons who allow the water to be used by neighbors or by co-tenants, or for the filling of cisterns, or for any use not stated or paid for, or for building purposes, without a special written permit from the Office, will be held responsible for the payment of such use of the water.

Water takers must supply their plumbing with a private shut-off; the shut-off at the curb is owned by, and is for the exclusive use of the Water Company.

No plumber or other person is authorized or allowed to put the water on for either temporary or permanent use.

The regular rent for the use of water shall be payable in advance, on the first day of June in each year. In all cases of non-payment of the water rent in thirty days after the rent is due, or of violation of the foregoing rules, the supply shall be cut off, and the water shall not be again let on, except on payment of the rent due and the sum of two dollars.

Notice is hereby given that the above Regulations will be strictly enforced.
