FAREWELL AND MANY THANKS

James Kaul, Director of Financial Aid, and Teresa Fitzsimmons, Counselor, are leaving The Newport College - Salve Regina this semester. Both are bound for Boston area educational institutions. Jim has a new post as Financial Aid Officer at the Harvard Graduate School of Education and Teresa will be joining Fisher Junior College as Resident Director.

Jim joined Salve in 1974 as Administrative Assistant to the Treasurer. In 1979 he was promoted to Director of Financial Aid. During the past few years he has devoted much time and energy to representing the College as a member of the R.I. Association of Student Financial Aid Administrators (ASFAA). He is also a member of both the Eastern and National divisions of ASFAA. Jim has been known among fellow administrators as a true professional: knowledgeable, dedicated, and always willing to serve. Students, also, will remember Jim for his expertise, his kind service, and for the important role he played in helping them through deadlines, paperwork and the problems of financing a college education.

Teresa has served Salve as a member of the Counseling Services staff for the past two years. As a Counselor, Teresa's tenure was marked by a genuine interest in the students and their concerns. She, too, exemplified with dedication and generosity the Salve ideal of kindness and service to others. This service was clearly evident in time spent by Teresa at the piano at almost every weekend liturgy. The entire College community has, indeed, appreciated her time and musical talent. We have been fortunate to have a master's degree counselor with a certificate of graduate study in piano and a bachelor's degree in music.

Thank you, Jim and Teresa, for your expertise, for your service, and for enriching the lives of all of us here at Salve. You will both be missed.

UPDATE ON ALCOHOL USE SURVEY

Earlier this semester a survey form was distributed to every member of the Newport College community to gather specific facts on the patterns of alcohol use and its related effects on the behavior of the members of this community. The results were to be used in assessing the need for and the development of alcohol education programs that would benefit all.

Nearly 800 surveys were returned from among the slightly more than 2,100 distributed. A word of thanks is in order to each student, faculty and staff member who took time to reflect on the questions and respond to the survey. Your cooperation is truly appreciated.

One component of this survey was a True/False section of facts at the end of the form. While survey results are unavailable at this time - they will be tabulated on a computer during the summer months.
