SPECIAL NEWSBULLETIN FOR FACULTY AND STAFF

September 1, 1981

A MESSAGE FROM THE PRESIDENT

The opening of the 1981-82 academic year finds us in the throes of great development at the College. We have reached our goals in enrollments. We are at a point where we are able to say we do not want to get bigger. We just want to get better.

New student enrollment has reached its peak. Additional buildings have been leased by the College to accommodate our growth; College service programs have been brought to a fuller and deeper awareness of their goals; curricular offerings not only have expanded but also have strengthened in quality; the horticulture program is our next goal in the academic area; and physical facilities to match our programs will be our aim for the coming years. Containment within in our pre-determined goals as we become our best selves both as individuals and as a College must guide us.

This planned development is a result of the efforts of every one of you -- members of the Faculty, Staff, Student Body, and our Friends. So while we spend the last few days preparing for a year which promises to be an exciting one, let us take time to reflect on the growth we have experienced and have fostered. Let us be glad that all you, we, have done has been within the framework of our primary mission -- that of providing opportunities for students to be educated.

In particular, today, I ask that you make a special effort in the next few weeks to help our new students through their adjustment to College life. Our returning students know that we welcome their return. Our fellow Faculty and Staff members know how much their efforts have meant with respect to

A MESSAGE FROM THE PRESIDENT (CONT)

developing the best that is in the College. I ask that all of you who have worked so hard to prepare Salve for the return of the students keep rejoicing in all that has been accomplished.

Although the next few days will be hurried, enjoy the fruits of your labors and know that you are what makes the difference between Salve Regina College and any other institution.

May the forthcoming year be an enriching and enjoyable one for you. I thank you for the many ways in which you have contributed to the development of our College community. God bless you.
