SALVE PROFESSOR CONDUCTING SUMMER PROGRAM FOR R.I. DEPARTMENT OF HEALTH

Mr. Robert J. McKenna, assistant professor of Politics and Philosophy at Salve Regina College, is the Director of the Summer Intern Orientation Program for the Rhode Island Department of Health. This program consists of an all-day initial session, which was held on June 19, and twelve afternoon seminars to be held each weekend ending September 6, 1967.

The purpose of the series of seminars is to provide an in-depth orientation for summer interns, most of whom are college students, and new employees of the Department of Health. The chiefs of the various divisions of the department will discuss many challenging opportunities within their fields for college and professionally trained personnel.

Approximately thirty-five students are participating in the seminars as well as some thirty members of the department as faculty.
