Communications Report

The committee appointed to consider communications problems at the college has held one meeting. An outcome of the group's deliberations is the questionnaire attached to this issue of the News Notes. It was the consensus of the group that in order better to analyze the communications situation at Salve some specific expression of the faculty's feeling would be helpful. You are urgently requested, therefore, to fill in the questionnaire, as frankly as you feel you can, and submit it as soon as possible to the Public Relations Office. You need not sign your name, of course, but please try to give the committee a definite idea of the scope and nature of the problem as you see it.
